### Training, Day Training and Puppy Visits:

Client is required to provide appropriate treats for training; suggested treats are usually soft, smelly and drive the dog nuts thinking about them.

*Cancellations* less than 12 hours prior to visit/training session will be subject to full visit costs (exception – if puppy is sick, a full refund will be credited, or re-booking accepted).

### *Puppy Visits and Day Training:*

Puppies should be in safe, Long-Term or Short-Term confinement areas (greater than 4 hour separation and less than 4 hours respectively) if they are not yet house trained.

### *Training:*

Dogs should not be fed (all) their usual meal prior to training time; especially in circumstances when the expected lesson will involve medium to heavy distractions; a good round of exercise is also recommended.

I have read, understood and accept the conditions of Training/Puppy Visit conditions (if applicable)

I have signed and completed the training waiver (required for Training).
